

Substance Use Program

It is the mission of our Substance Use Disorder Treatment to ensure all clients receive appropriate and coordinated care to address Substance Use Disorders (SUDs) along with any Co-Occurring Disorders (CODs), whether they relate to mental health diagnoses, trauma, and/or criminal behavior.

Who is substance use treatment for?

Growth Works' treatment program consists of care that spans the needs of those who have curiosity surrounding mood altering substances and the impact their use has had in their lives; to those that have awareness that their use is out of control. There are also others who are practicing recovery but may still benefit from additional support.
